EDUCATION

Netaji Subhas University of Technology

2024-2028

Bachelor of Technology in Computer Science and Engineering with specialization in Artificial Intelligence

Dwarka, Delhi, India

CGPA: 7.85/10.00

Khemo Devi Public School

2024

Class 12th 92.8%

Narela, Delhi

Dyal Singh Public School

2022

Class 10th 94.6%

Karnal, Haryana

SKILLS

Programming Languages Python | C++ | C | JavaScript | SQL

ML Machine Learning | Feature Engineering | Data Preprocessing

ML Techniques Model Evaluation | Hyperparameter Tuning

GenAI & LLMs Generative AI | Prompt Engineering | Hugging Face | Transformers | LangChain | RAG

Libraries Pandas | NumPy | Matplotlib | Scikit-learn | ChromaDB | FAISS

Tools & Core CS Git | GitHub | Jupyter Notebook | VS Code | Data Structures | Algorithms

EXPERIENCE

Invontec Infosoft Pvt. Ltd. (Singapore Based)

June 10, 2025 – July 10, 2025

AI & Software Development Intern

Karnal, Haryana

- Built AI-assisted software solutions using Python and Generative AI concepts.
- Applied prompt engineering, text generation, and summarization using pre-trained language models.
- Explored machine learning workflows for classification and prediction use cases.
- Integrated AI-generated outputs into automation workflows.

Startups & Freelance Graphic Designer

April 2022 - Present

Delivered branding, thumbnails, and digital creatives for 50+ clients via Fiverr and other services.

Online

- Collaborated with 5+ startups on branding, content strategy, UI concepts, and digital marketing creatives.

NOTABLE PROJECTS

Urban Green Corridor Interventions Platform

Innovate'25 Hackathon Runner-Up

AI-powered spatial intelligence platform for urban sustainability and environmental impact forecasting

- Engineered a full-stack GIS platform using Flask, GeoPandas, Shapely, and Leaflet.js to analyze, score, and visualize urban ecological zones and green corridor interventions.
- Integrated Google Gemini 2.0 Flash to develop an AI Urban Ecology Assistant capable of processing natural language queries and triggering real-time map actions through structured JSON outputs.
- Built algorithmic scoring models incorporating area, connectivity, landmark proximity, and community engagement metrics to prioritize urban greening interventions.
- Implemented real-time environmental forecasting using Open-Meteo APIs to estimate AQI improvement, temperature reduction, and carbon sequestration impact.

KrishiQuest – Gamification of Sustainable Farming

SIH 2025 Qualified

Designed a gamified digital platform to promote sustainable farming practices among small and marginal farmers

- Designed a gamified learning platform using quizzes, challenges, and reward mechanisms to encourage water optimization, fertilizer efficiency, and sustainable farming practices.
- Developed a mobile-first full-stack platform using React.js, Node.js, JavaScript, HTML, CSS, and Tailwind CSS, optimized for low-spec rural devices.
- Conceptualized an AI-assisted recommendation system to provide personalized guidance and learning support based on farmer inputs.

House Price Prediction System

Machine Learning Project

Machine learning pipeline for real-estate price prediction and model evaluation

- Performed data preprocessing, feature engineering, and exploratory data analysis on housing datasets using Pandas and NumPy.
- Implemented and evaluated machine learning models using NumPy and Scikit-learn with train-test splitting and performance metrics.
- Applied hyperparameter tuning and model selection techniques to improve predictive performance and generalization.
- Built an end-to-end prediction workflow covering data ingestion, transformation, training, evaluation, and inference.

CERTIFICATIONS

- AI Fluency: Framework & Foundations – Anthropic
- Building LLM Applications with Prompt Engineering – NVIDIA

POSITION OF RESPONSIBILITY

- Social Media & PR Head – SPIC MACAY NSUT (National-Level Cultural Society); led outreach, promotions, and public engagement initiatives.
- Co-Founder – Elura; conceptualized and developed a gift-focused startup, contributing to product ideation, branding, and growth strategy.
